

This document contains information on University of Exeter provided in the official university website's link : <https://www.exeter.ac.uk/>

Please note: The below is for 2025 entry.

### **About the University?**

#### **1) Streatham Campus in Exeter, Devon**

The University of Exeter combines world-class research with excellent student satisfaction, from our campuses in the South West of England, in Exeter and Cornwall. We are one of the very few universities to be both a member of the Russell Group and have a Gold award from the Teaching Excellence Framework (TEF), evidence of our established international reputation for excellence in both teaching and research. Our success is built on a strong partnership with our students and a clear focus on high performance.

#### **2) Changing lives through education since 1851**

The University of Exeter has been dedicated to discovery and changing lives through education since 1851 when the Exeter Schools of Art and Science were founded. In 1922 we became the University College of the South West, receiving our Charter in 1955, achieving full university status and becoming the University of Exeter.

The University was joined in 1978 by St Luke's College of Education (est. 1840) and in 2004 we opened the Penryn Campus, expanding the provision of higher education in Cornwall. Today, we're a member of the Russell Group, recognised for both our research and teaching excellence.

#### **3) Global Exeter**

The University has over 25,000 students from 130 countries and over 125,000 alumni in 183 countries providing our academic community of staff, students and visiting researchers with a truly global experience and a diverse, inclusive environment. Our strategic partnerships across the world bring together leading academics and the resources of outstanding universities to deliver transformative impact in key global challenges such as global sustainability and wellbeing.

#### **4) Research Excellence**

Our research is at the heart of what we do and is making a difference across the world. We unite expertise from across our academic disciplines, breaking down barriers to create innovative solutions to complex, global challenges.

Recent breakthroughs to come out of the University of Exeter's research include using drone surveys and computer modelling to plot extreme arctic erosion, improving diagnosis and treatment for cancer and diabetes (for which we were awarded a prestigious Queen's Anniversary Prize) and developing a 7-point plan to battle the climate emergency via economic reform. Our scientists and clinicians are also part of a £20 million investment to battle the spread of coronavirus utilising the University's state-of-the-art equipment to sequence the virus from Devon patients to help combat the disease.

#### **5) Student satisfaction**

The University of Exeter has always been among the leaders for student satisfaction in the National Student Survey. The senior management team has sought to build on this strength by putting student service at the centre of its strategy. The Students' Guild (Exeter Campuses) and the Falmouth and Exeter Students' Union (Penryn Campus, Cornwall) are involved at the earliest stages of strategic

planning and given a major role in making spending decisions through a specially created Budget Scrutiny Group. This has led to a remarkable degree of joint thinking and team work.

#### 6) Outstanding facilities

We have excellent teaching and research facilities and laboratories for science, technology, engineering, mathematics and medicine, as well as humanities and science across all of our campuses. These include the Environment and Sustainability Institute at our Penryn Campus, the Living Systems Institute and Digital Humanities Lab at our Streatham Campus, and the Research, Innovation, Learning and Development Centre (RILD) at the Royal Devon and Exeter Hospital, near our St Luke's Campus.

#### 7) The University of Exeter in Cornwall

Key to our success are our two Cornwall campuses: the Truro Campus and the Knowledge Spa on the Royal Cornwall Hospital site, and the Penryn Campus where some of the world's biggest challenges relating to the environment, health and sustainability are tackled. Our Truro Campus is a base for a proportion of students from the University's College of Medicine and Health, as well as the European Centre for Environment and Human Health. On our Penryn Campus, investments to the Science and Engineering Research Support Facility (SERSF) and the Environment and Sustainability Institute (ESI) put not only the University, but also Cornwall as a whole, at the forefront of research aiming to solve problems associated with environmental change. This commitment to sustainability underpins our ethos and recurs throughout our degree programmes as well as in student societies, clubs and the running of the campus.

Our Penryn Campus currently supports around 6,000 students. It offers a close-knit friendly community, in an arrangement that is unique as the campus is shared with Falmouth University; a leading specialist arts institution. This combination creates a vibrant community of students and academics from science, engineering, humanities and arts backgrounds.

#### 8) University of Exeter Sport

We believe that sport is an important part of the student experience and this is reflected in our investment of over £25 million during the last decade in the highest quality training environments, resources and services for the development, coaching and playing of sport making us home to some of the best sports facilities in UK universities. We're the number 1 sports university in the South of England and Wales and consistently finish top 10 in the British Universities and Colleges Sport (BUCS) rankings each year.

The Sports Park at our Streatham Campus includes our Athlete Development Centre, all weather pitches, Cricket, Golf and Tennis Centres as well as the Russell Seal Fitness Centre and beautiful outdoor swimming pool. Our St Luke's indoor pool provides opportunities for children in the local community to learn to swim at the St Luke's Swim School and students also benefit from a gym on the campus. Students based in Exeter also have access to a range of facilities off-site such as the Boathouse and sports grounds. Students at our Penryn Campus have access to a range of excellent facilities including a 90-station gym, outdoor gym equipment, sports hall and all-weather multi-use games area.

#### **What are the undergraduate courses provided by the university?**

- Undergraduate

- Accounting and Finance  
Link: <https://www.exeter.ac.uk/study/undergraduate/courses/accounting/>
  - Accounting and Business BSc
  - Accounting and Finance BSc
  - Finance: Investment Banking / Business Management / Data Science BSc
  - Financial Services Professional Degree Apprenticeship
- Anthropology  
Link: <https://www.exeter.ac.uk/study/undergraduate/courses/anthropology/>
  - Anthropology BA
  - Archaeology and Anthropology BA
  - Sociology and Anthropology BA
- Arab and Islamic Studies  
Link: <https://www.exeter.ac.uk/study/undergraduate/courses/arabislamic/>
  - Arab and Islamic Studies MArabic
  - Arabic and Politics BA
  - Middle East Studies BA
  - Modern Languages and Arabic BA
- Archaeology  
Link: <https://www.exeter.ac.uk/study/undergraduate/courses/archaeology/>
  - Ancient History and Archaeology BA
  - Archaeological Science BSc
  - Archaeology with Forensic Science BSc
  - Archaeology BA
  - Archaeology and Anthropology BA
- Art History & Visual Culture

### **What are the various campus available for the university?**

#### Our campuses

Depending on your choice of degree, you may be based at our Streatham Campus or St Luke's Campus in Exeter, or at our Penryn Campus in Cornwall. Both locations offer green campuses in some of the most beautiful parts of the country and are home to 22,000 students from over 130 countries.

View a virtual tour of our campuses : [https://virtualtourcompany.co.uk/exeter\\_university/index.html](https://virtualtourcompany.co.uk/exeter_university/index.html)

#### 1) Streatham Campus in Exeter, Devon

The majority of students are based at our Streatham Campus. The campus is one of the most beautiful in the country and offers a unique environment in which to study, with lakes, parkland, woodland and gardens as well as modern and historical buildings.

#### 2) St Luke's Campus in Exeter, Devon

Located on the eastern edge of the city centre, St Luke's is home to Sport and Health Sciences, the Medical School, the Academy of Nursing, the Department of Allied Health Professions, and PGCE students.

### 3) Penryn Campus near Falmouth, Cornwall

Our Penryn Campus is consistently ranked highly for satisfaction: students report having a highly personal experience that is intellectually stretching but great fun, providing plenty of opportunities to quickly get to know everyone.

### 4) Other locations

The Knowledge Spa in Truro, Cornwall

Our Truro Campus is the base for University of Exeter Medical students studying Bachelor of Medicine, Bachelor of Surgery (BMBS) during years two, three, four and five.

### 5) The RILD building in Exeter, Devon

The Research, Innovation, Learning and Development (RILD) building is a health education and research centre based at the Royal Devon & Exeter Hospital in Exeter.

## Contact Information:

- The University Switchboard number is **01392 661000**.
- Extensions can be direct dialled by prefixing 01392 72 to the number.
- To request changes to phone directory information please logon to the IT Service desk: <https://www.exeter.ac.uk/itservicedesk> and select 'Request an IT Service' and then the category 'Request a telephony request'.
